

As a resident of Laramie, Wyoming I am encouraged daily by listening to the programming on the Air 1 radio station. It is the only radio station which I listen to and I know other in the community who feel the same way. Were this station to be taken off the air, I believe many Air 1 listeners would not listen to any other station. Air 1 provides programming that can be listened to by the whole family without concern about inappropriate content. This is an important public interest in a time when it is hard to find a family friendly radio station.
